Presented in Life+ 2013 call, Life MED project has the aim to study and realise a new integrated management system for discarded medical equipment, in particular biomedical devices. The objective is to minimise the waste production from medical equipment disposal, maximising their re-use and regeneration. For the networking action we want to promote some meetings that bring the participating projects to increase mutual understanding, in order to acquire skills in communication mode of European projects in progress and the assessment of the repeatability of one or more of the implemented measures.

The first networking meeting of July 28, 2015 will be divided in two sessions:

15.00 -16.00	Presentation of attendees projects and of the projects who joined the networking action 6- 10 min everyone – (max 10 slides every project)
16.00-17.30	Round table on focus: communication tool used
17.30	Presentation of a simple tool for collectiong informations
